

Zain Latif

Address: Samanabad, Lahore, Pakistan | zainlatif702@gmail.com | +923237668916 | LinkedIn: [zainlatif702](#) | GitHub: [zainlatif](#)

SUMMARY

Computer Science graduate with internship experience in data analytics and machine learning. Skilled in Python, SQL, Excel, Power BI, and data visualization, with hands-on experience in data cleaning, predictive modeling, and business intelligence solutions.

EXPERIENCE

Gravixta

Faisalabad, Pakistan

Data Analyst Intern

June 2025 – Sept 2025

- Cleaned, transformed, and prepared **10,000+ records** using Excel and Python to improve data quality for analysis.

Cybex IT Group. Ltd

Faisalabad, Pakistan

Data Analyst Intern

Sep 2025 – Dec 2025

- Built machine learning models and Power BI dashboards while performing data preprocessing and deploying solutions via Fast API.

Excelerate

Remote

Data Analyst Intern

March 2025 – April 2025

- Collaborated with an international remote team to analyze datasets, generate insights, and deliver data-driven project outcomes.

CodeAlpha

Remote

Data Analyst Intern

June 2026 – July 2026

- Cleaned, processed, and analyzed datasets using Excel and SQL to support data analysis and reporting tasks.

Syntecxhub

Remote

Data Analyst Intern

August 2026 – Present

- Analyzing data patterns and trends to support decision-making while preparing concise reports and dashboards for business-focused tasks.

EDUCATION

Govt College University Faisalabad

Faisalabad, Pakistan

B.S in Computer Science

2021 to 2025

- **Related Coursework:** Data Structures & Algorithms, Artificial Intelligence, Machine Learning, Statistics, Linear Algebra, Data Mining.

PROJECTS

Telecom Customer Churn Prediction System

- Developed a machine learning system to predict customer churn using a telecom dataset (7,043 records, 21 features). Performed data cleaning, feature analysis, and trained a CatBoost model achieving ~80% accuracy. Created interactive dashboards in Power BI to visualize churn patterns and support data-driven retention strategies. ([GitHub Link](#))

Mobile Phone Recommendation System (MERN)

- Developed a MERN-based phone recommendation platform with AI-powered recommendations, user authentication, favorites, admin dashboard, and chatbot integration. ([GitHub Link](#))

Certification & Achievements

- **Data Analyst & Business Intelligence** — DigiSkills
- **SQL** (Intermediate) — HackerRank
- **REST API** — HackerRank
- **Python** (Basic/Fundamentals) — HackerRank

SKILLS

Programming: Python, JavaScript, C++

Data Analytics: SQL, Excel, Power BI, Pandas, NumPy

Machine Learning: Scikit-learn, CatBoost Forest, Linear Regression, Random

Web Development: React, Node.js, Express.js, FastAPI

Databases: MongoDB, SQL

Tools: Git, Jupyter Notebook, Postman, VS Code, Kaggle
