

Zain Latif

Address: Samanabad, Faisalabad, Pak | zainlatif702@gmail.com | +923237668916 | LinkedIn: [zainlatif702](#) | GitHub: [zainlatif](#)

SUMMARY

Computer Science graduate with internship experience in data analytics, machine learning, SQL, Power BI, and web development. Skilled in data cleaning, visualization, predictive modeling, and dashboard development. Experienced in transforming raw data into actionable insights and deploying ML solutions through web applications.

EXPERIENCE

Gravixta Faisalabad

Faisalabad, Pakistan

Data Analyst Internee

June, 2025 - Sept, 2025

- Cleaned and transformed datasets containing 10,000+ records, improving data quality for downstream analysis
- Performed data preprocessing to prepare datasets for analysis.

Cybex IT Group .Ltd

Faisalabad, Pakistan

Data Analyst Internee

Sep, 2025 - Dec, 2025

- Trained and evaluated machine learning models using regression techniques for data-driven insights. Performed extensive data cleaning, preprocessing, and visualization to support analytical decision-making. Developed interactive Power BI dashboards for performance tracking and business intelligence. Integrated ML models into web applications using RESTful APIs and FastAPI for seamless deployment.

Excelebrate

Remote Dubai

Data Analyst Internee

March, 2025 - April, 2025

- Cleaned and processed raw data using Excel and SQL, removing errors and preparing datasets for analysis.
- Wrote SQL queries and created Excel visualizations to extract insights and present data trends effectively.

EDUCATION

Govt College University Faisalabad

Faisalabad, Pakistan

B.S in Computer Science

2021 to 2025

- **Related Coursework:** Data Structures & Algorithms, Computer Organization & Programming, Database, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Statistics.

PROJECTS

Telecom Customer Churn Prediction System

- Developed a machine learning system to predict customer churn using a telecom dataset (7,043 records, 21 features). Performed data cleaning, feature analysis, and trained a CatBoost model achieving ~80% accuracy. Created interactive dashboards in Power BI to visualize churn patterns and support data-driven retention strategies. [Click here](#)

Mobile Phone Recommendation System (MERN)

- Built a mobile-friendly phone comparison platform with AI-driven recommendations.
- Integrated Flask-based recommendation engine via /predict endpoint.
- Includes features like authentication, favourites, admin panel, and chatbot integration. ([GitHub Link](#))

Certification & Achievements

- **Data Analyst & Business intelligence** - Digiskills
- **SQL Database Intermediate** - HackerRank
- **Python Programming Fundamentals** - HackerRank
- **Problem Solving Certificate** - HackerRank
- **REST API** – HackerRank

SKILLS

Data Analytics: SQL, Excel, Power BI, Pandas, NumPy

Machine Learning: Linear Regression, Random Forest, CatBoost, Scikit-learn

Programming: Python, JavaScript, C++

Databases: MongoDB, SQL

Web Development: React, Node.js, Express.js

Tools: Git, Jupyter Notebook, Postman, VS Code, Kaggle
